INTRODUCTORY.

With this issue of the Terre Haute City Directory, we present the Eighteenth Volume, the last four of which have been issued by us.

We have endeavored to make each new volume an improvement on the last, and think we have succeeded.

This volume is printed on new type, purchased by us especially for Directory work.

Our estimate of the population of the City of Terre Haute is 29,772, being an estimate from the enumeration of all males over twenty-one years of age, which is given by Wards and Precincts on Page 64.

In the Miscellaneous Directory will be found a great deal of information in regard to our city and county government, time of holding courts, church directory, incorporated companies, secret societies, etc., etc., and after the street directory will be found the ward boundaries and voting precincts, and place of voting.

Our Map has been so arranged as to show the ward boundaries, voting precincts and place of voting.

We desire to say a few words in regard to the Directory of 1884. The work will be commenced earlier, and issued shortly after the first of January. It will contain in addition to the City and Business Directory a complete County Directory, besides a number of other new and important features, and will be a volume invaluable in every business house or private family.

We desire to return our thanks to our patrons, and hope to place them on our list for the Terre Haute City and Vigo County Directory of 1884.

Kaffee!

Die große Wichtigkeit, welche der geröstete Kaffee

in den letzten Jahren als Stapel-Artikel im Handel erlangt hat, brachte natürlicher Weise ein Streben nach Verbesserung dieser Waaren mit sich. Es ist bereits eine bekannte Thatsache, daß gerösteter Kaffee zu einem weit geringeren Preise zu haben ist, als er für die Kunden betragen würde, wenn sie grünen Kaffee einkaufen und ihn rösten wollten. Die einzige Frage ist:

Bekommt der Käufer reinen Kaffee?

Nur verhältnißmäßig Wenigen ist bekannt, wie vielfacher Art die Fälschungen sind, welche von diesen oder jenen gewissenlosen Individuen mit geröstetem Kaffee vorgenommen werden. Die heillose Anwendung von Glucose, Traubenzucker, Gummiarabicum, Eiern usw. behufs angeblicher

Glasur oder Läuterung des Kaffees

hat in Wahrheit weniger in den letzteren seinen Grund, als in der beabsichtigten Fälschung, Verbergung von mangelhaftem oder schlechtem Kaffee und Erhöhung der Masse und des Gewichtes. Der Käufer von jedem Pfund sog. glasirten oder sich selbst läuternden Kaffees bezahlt für 1—3 Unzen gefälschten Stoffes je nach der Gewissenhaftigkeit und Geschicklichkeit des Röstenden. Kunden können ihrem Kaffee, wenn gewünscht, mit wenigen Kosten und ohne Anwendung von verdorbenen Eiern selbst eine Glasur verschaffen. Leute, die den gerösteten Kaffee gebrauchen, sind dieses Betruges gewahr geworden und während sie den gerösteten Kaffee immer noch vorziehen, verlangen sie bessere und reinere Waaren. Um nun den heutigen Ansprüchen des Publikums zu genügen, habe ich ein zweckmäßiges Gebäude mit der neuesten modernsten Maschinerie für das Rösten von Kaffee herstellen lassen, so daß ich mit meinem

COFFEE.

THE GREAT IMPORTANCE WHICH

ROASTED COFFEE

Has of late years acquired as a staple, has naturally suggested the better development of this branch of trade. It is already an established fact that Roasted Coffee can be purchased at a much less expense than the consumer can purchase the Green Coffee and roast it. The only question is:

DOES THE CONSUMER GET PURE COFFEE?

Comparatively few people are aware of the extensive adulterations to which Roasted Coffee is subjected. The pernicious use of Glucose, Grape Sugar, Gum Arabic, Eggs, &c., for the

GLAZED OR SO-CALLED SELF-SETTLING COFFEE

Is not so much for clarifying and settling Coffee as for ADULTERATION, hiding defects of poor Coffee and increasing WEIGHT and BULK. The purchaser of every pound of so-called Glazed or Self-Settling Coffee pays for from one to three ounces of adulteration, the amount being determined altogether by the conscience and skill of the Roaster. Consumers can glaze their own Coffee, if desired, at less cost and without the use of decayed eggs or other injurious matter. People who have used Roasted Coffee are becoming aware of this adulteration, and with a preference FOR Roasted Coffee, are demanding better and purer goods.

In order to meet this demand I have erected a building and fitted up the most modern and improved machinery for Roasting Coffee, and am enabled to meet and vanquish all competition by placing in market

DAUNTLESS ROASTED COFFEE!

Which is, without question, perfectly PURE and UNADULTERATED, being roasted from

SOUND, SWEET BERRIES OF THE BEST HIGH GRADE COFFEES,

So delicately mixed in such proper proportions as to produce a Bouquet of Aromatic Flavors, making a most Delicious and Healthy Beverage. If you want a Delightful and Healthy Drink, ask your Grocer for

HULMAN'S DAUNTLESS ROASTED COFFEE!

I am also packing the various Coffees of the Best Grades separately under the "DAUNTLESS" Brand, which is a guarantee of their excellence, and will be known as

THE "FISHING LINE."

TAKE THE

Grand Rapids & Indiana

RAILROAD,

The only route to the Trout, Grayling and Black Bass Fisheries, and the Famous Summer, Health and Game Resorts and Lakes of

NORTHERN MICHIGAN.

THE WATERS of the Grand Traverse Woods are unsurpassed, if equaled, in the fish contained.

BROOK TROUT abound in the streams, and is found only in these waters.

THE TROUT SEASON begins May 1st and ends Season opens June 1st and ends November 1st.

BLACK BASS, Pike, Pickerel and Muskalonge also abound in large numbers in the many lakes and lakelets of this territory. The sportsman can readily send trophies of his skill to his friends or "Club" at home, as ice for packing fish can be had at nearly all points.

TAKE YOUR FAMILY WITH YOU. The scenery of the North Woods and Lakes is very beautiful. The air is pure, dry and bracing.

THE CLIMATE is peculiarly beneficial to those suffering with Hay-Fever and Asthmatic Affections.

NEW HOTELS, with all modern improvements, have been erected, as well as many extensive additions to the older ones, which will guarantee ample Accommodations for all.

The completion of this line from Petoskey to Mackinaw City, forms the most direct route to Mackinac, St. Ignace, and in connection with the Detroit, Mackinac & Marquette Railroad, to Marquette, Negaunee, L'Anse, Houghton, Hancock and all points in the upper peninsula of Michigan.

During the season, Round Trip Excursion Tickets will be Sold at Low Rates, and attractive train facilities offered to Tourists and Sportsmen.

Dogs, Guns and Fishing tackle carried Free at owner's Risk. It is our aim to make Sportsmen feel "At Home" on this route.

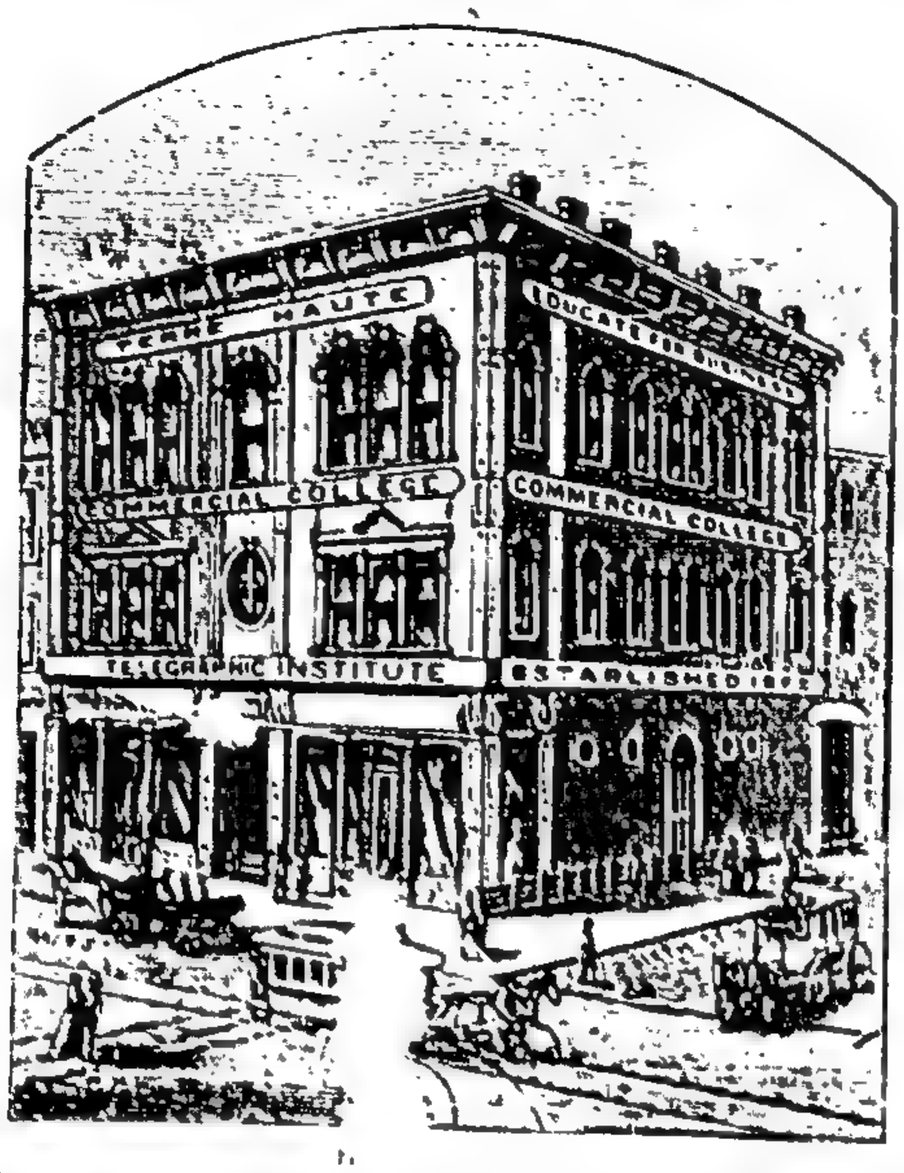
OLD AND RELIABLE!



This Institution, which h. now been in constant and successful operation for upwa 's of twenty years, affords advantages for the th ough practical education of young men and women possessed by no other school in the west.

WHY WE HAVE ADVANTAGES UNSURPASSED.

First—The College is located in one of the most flourishing, beautiful and healthy cities of the West.

Second—The College occupies larger and finer rooms than any similar institution.

Third—The proprietors and teachers are practical business men, having had years of experience.

Fourth—It is the least expensive to the pupil, as all text books, manuscripts, etc., are free to the student.

Fifth—The result arising from the above advantages has given us a patronage that we do not hesitate to say is larger than any (strictly business College) in the West.

TELEGRAPHY.

This department offers superior advantages, using full main line circuit, and is superintended by a practical Instructor. There is a constant and increasing demand for good operators, and, as far as we know, all of our dents have been successful in procuring good situations. Let us know the time you will enter so we can have the necessary arrangements our accommodation. For terms, giving full particulars, address

EMELINE FAIRBANKS MEM. LIBRARY

INTRODUCTORY.

The Nineteenth Volume of the Terre Haute City Directory and Second Volume of the Vigo County Gazetteer is herewith presented to our patrons. The last five volumes have been issued by us. Each issue will be found an improvement over the previous one, and this issue will be found a greater improvement than any heretofore.

Our beautiful city is enjoying a boom this year, and we hope our Directory will be the means of giving strangers and others a fair idea of our business, manufacturing interests, &c.

Our estimate of the population is, in round numbers, 31,000, and steadily increasing.

The County Directory will be found a great improvement over our first issue, and in connection with our new County Map persons can be located as readily as if living in the city. Although the expense of canvassing the county has been considerable more than was at first expected, we believe we have the first, best, and only work of the kind ever issued.

While it may seem like boasting, we can say without fear of contradiction, that no city in the United States, for its size, can boast of as large and as fine a City Directory as Terre Haute.

A Postoffice Directory of Indiana and Illinois will be found in this issue.

In conclusion, we desire to return our thanks for the liberal patronage the business public have bestowed upon us, and hope in the future, as in the past, to always merit the same.

POST OFFICE LAWS.

Direct your mail matter to a post office, and if to a city, add the street and number or post office box of the person addressed. If you are not certain that the place to which you wish to send is a post office, inquire of the postmaster. Matter not addressed to a post office cannot be forwarded. Write or print your name and address, and the contents, if a package, upon the upper left-hand corner of all mail matter. This will insure its immediate return to you for correction, if improperly addressed or insufficiently paid; and if it is not called for at destination, it can be returned to you without going to the Dead Letter office. If a letter, it will be returned free. Register all valuable letters and packages. Registery fee, ten cents, which, with the postage, must be fully prepaid. The name and address of the sender must be given on the outside of the envelope or wrapper.

RATES OF POSTAGE.

First Class—Letters and all other written matter, whether sealed or unsealed, and all other matter sealed, nailed, sewed, tied or fastened in any manner so that it cannot be easily examined, 2 cents per half ounce or fraction thereof. Postal cards, one cent each. Postal cards are unmailable with any writing or printing on the address side, except the direction, or with anything pasted upon or attached to them.

Second Class—Only for publishers and news agents.

Third Class—Mail matter of the third class embraces books (printed), transient newspapers and periodicals, circulars, proof-sheets, and corrected proof-sheets with manuscript copy accompanying the same, and all matter of the same general character, as above enumerated, the printing upon which is designed to instruct, amuse, cultivate the mind or taste, or impart general information, and postage shall be paid thereon at the rate of one cent for each two ounces or fractional part thereof.

Fourth Class—Mail matter of the fourth class embraces labels, patterns, photographs, playing cards, visiting cards, address tags, paper sacks, writing paper and blotting pads, with or without printed advertisements thereon, bill-heads, letter-heads, envelopes with printed addresses thereon, ornamented paper, and all other matter of the same general character, the printing upon which is not designed to instruct, amuse, cultivate the mind or taste, or impart general information. This class also includes merchandise, and samples of merchandise, models, samples of ores, metals, minerals, seeds, etc., and any other matter not included in the first, second or third classes, and which is not in its form or nature liable to destroy, deface or otherwise damage the contents of the mail bag, or harm the person. Rate, one cent per ounce or fraction thereof. Limit of weight, 4 pounds. Full prepayment compulsory.

Drop Letters.—Postage on drop letters (where letter carrier system is established) two cents for each half ounce, or fraction thereof. Third Class—One cent for each two ounces or fraction thereof. Fourth Class—One cent for each ounce or fraction thereof.

PERMISSIBLE WRITING.

No writing is permitted on third or fourth class matter except as follows: The name and address of sender on the outside or inside of package, preceded by the word "from." On the wrapper may also be written the names and number of articles inclosed. The sender is further allowed to mark a word or passage in a book or paper to which he desires to call special attention. He may also write a simple inscription or dedication upon the cover or blank leaves of a book or pamphlet. There may be attached to articles of merchandise, by tag or label, a mark, number, name, or letter for purpose of identification. Printed circulars may contain the written name of the sender, and of the addressee, and the date. Any other writing on third or fourth class matter will subject the package to letter rates of postage, and render the sender liable to a fine of $10 for each offense.

Kaffee!

Die große Wichtigkeit, welche der geröstete Kaffee

in den letzten Jahren als Stapel-Artikel im Handel erlangt hat, brachte natürlicher Weise ein Streben nach Verbesserung dieser Waaren mit sich. Es ist bereits eine bekannte Thatsache, daß gerösteter Kaffee zu einem weit geringeren Preise zu haben ist, als er für die Kunden betragen würde, wenn sie grünen Kaffee einkaufen und ihn rösten wollten. Die einzige Frage ist:

Bekommt der Käufer reinen Kaffee?

Nur verhältnißmäßig Wenigen ist bekannt, wie vielfacher Art die Fälschungen sind, welche von diesen oder jenen gewissenlosen Individuen mit geröstetem Kaffee vorgenommen werden. Die heillose Anwendung von Glucose, Traubenzucker, Gummiarabicum, Eiern, u s w. behufs angeblicher

Glasur oder Läuterung des Kaffees

hat in Wahrheit weniger in den letzteren seinen Grund, als in der beabsichtigten Fälschung, Verbergung von mangelhaftem oder schlechtem Kaffee und Erhöhung der Masse und des Gewichtes. Der Käufer von jedem Pfund sog. glasirten oder sich selbst läuternden Kaffees bezahlt für 1—3 Unzen gefälschten Stoffes, je nach der Gewissenhaftigkeit und Geschicklichkeit des Röstenden. Kunden können ihren Kaffee, wenn gewünscht, mit wenigen Kosten und ohne Anwendung von verdorbenen Eiern selbst eine Glasur verschaffen. Leute, die den gerösteten Kaffee gebrauchen, sind dieses Betruges gewahr geworden und während sie den gerösteten Kaffee immer noch vorziehen, verlangen sie bessere und reinere Waaren. Um nun den heutigen Ansprüchen des Publikums zu genügen, habe ich ein zweckmäßiges Gebäude mit der neuesten modernsten Maschinerie für das Rösten von Kaffee herstellen lassen, so daß ich mit meinem

"DAUNTLESS ROASTED COFFEE"

jeder Concurrenz erfolgreich zu begegnen im Stande bin — Kaffee, ohne Frage tadellos rein und unverfälscht geröstet, von gesunden, süßen Bohnen des allerbesten Kaffees, im richtigen Verhältniß so delikat gemischt, um ein Bouquet von aromatischem Wohlgeruch zu erzielen und eines der angenehmsten und gesündesten Getränke daraus bereiten zu lassen. Wollt ihr also ein liebliches und zuträgliches Getränk, so fragt euren Grocerisen nach

COFFEE.

THE GREAT IMPORTANCE WHICH

ROASTED COFFEE

Has of late years acquired as a Staple, has naturally suggested the better development of this branch of trade. It is already an established fact that Roasted Coffee can be purchased at a much less expense than the consumer can purchase Green Coffee and roast it. The only Question is:

DOES THE CONSUMER GET PURE COFFEE?

Comparatively few people are aware of the extensive Adulterations to which Roasted Coffee is subjected. The Pernicious Use of **Glucose, Grape Sugar, Gum Arabic, Eggs, &c.,** for the

GLAZED OR SO-CALLED SELF-SETTLING COFFEE

Is not so much for clarifying and settling Coffee, as for ADULTERATION, hiding defects of poor Coffee and increasing WEIGHT and BULK. The purchaser of every pound of so-called Glazed or Self-Settling Coffee pays for from one to three ounces of adulteration, the amount being determined altogether by the conscience and skill of the Roaster. Consumers can glaze their own Coffee, if desired, at less cost and without the use of decayed eggs or other injurious matter. People who have used Roasted Coffee are becoming aware of this adulteration, and with a preference FOR Roasted Coffee, are demanding better and purer goods.

In order to meet this demand I have erected a building and fitted up the most modern and improved machinery for roasting Coffee, and am enabled to meet and vanquish all competition, by placing in market

DAUNTLESS ROASTED COFFEE!

Which is, without question, perfectly PURE and UNADULTERATED, being roasted from

SOUND, SWEET BERRIES OF THE BEST HIGH GRADE COFFEES,

So delicately mixed in such proper proportions as to produce a **Bouquet of Aromatic Flavors,** making a most Delicious and Healthy Beverage. If you want a Delightful and Healthy Drink, ask your Grocer for

HULMAN'S DAUNTLESS ROASTED COFFEE!

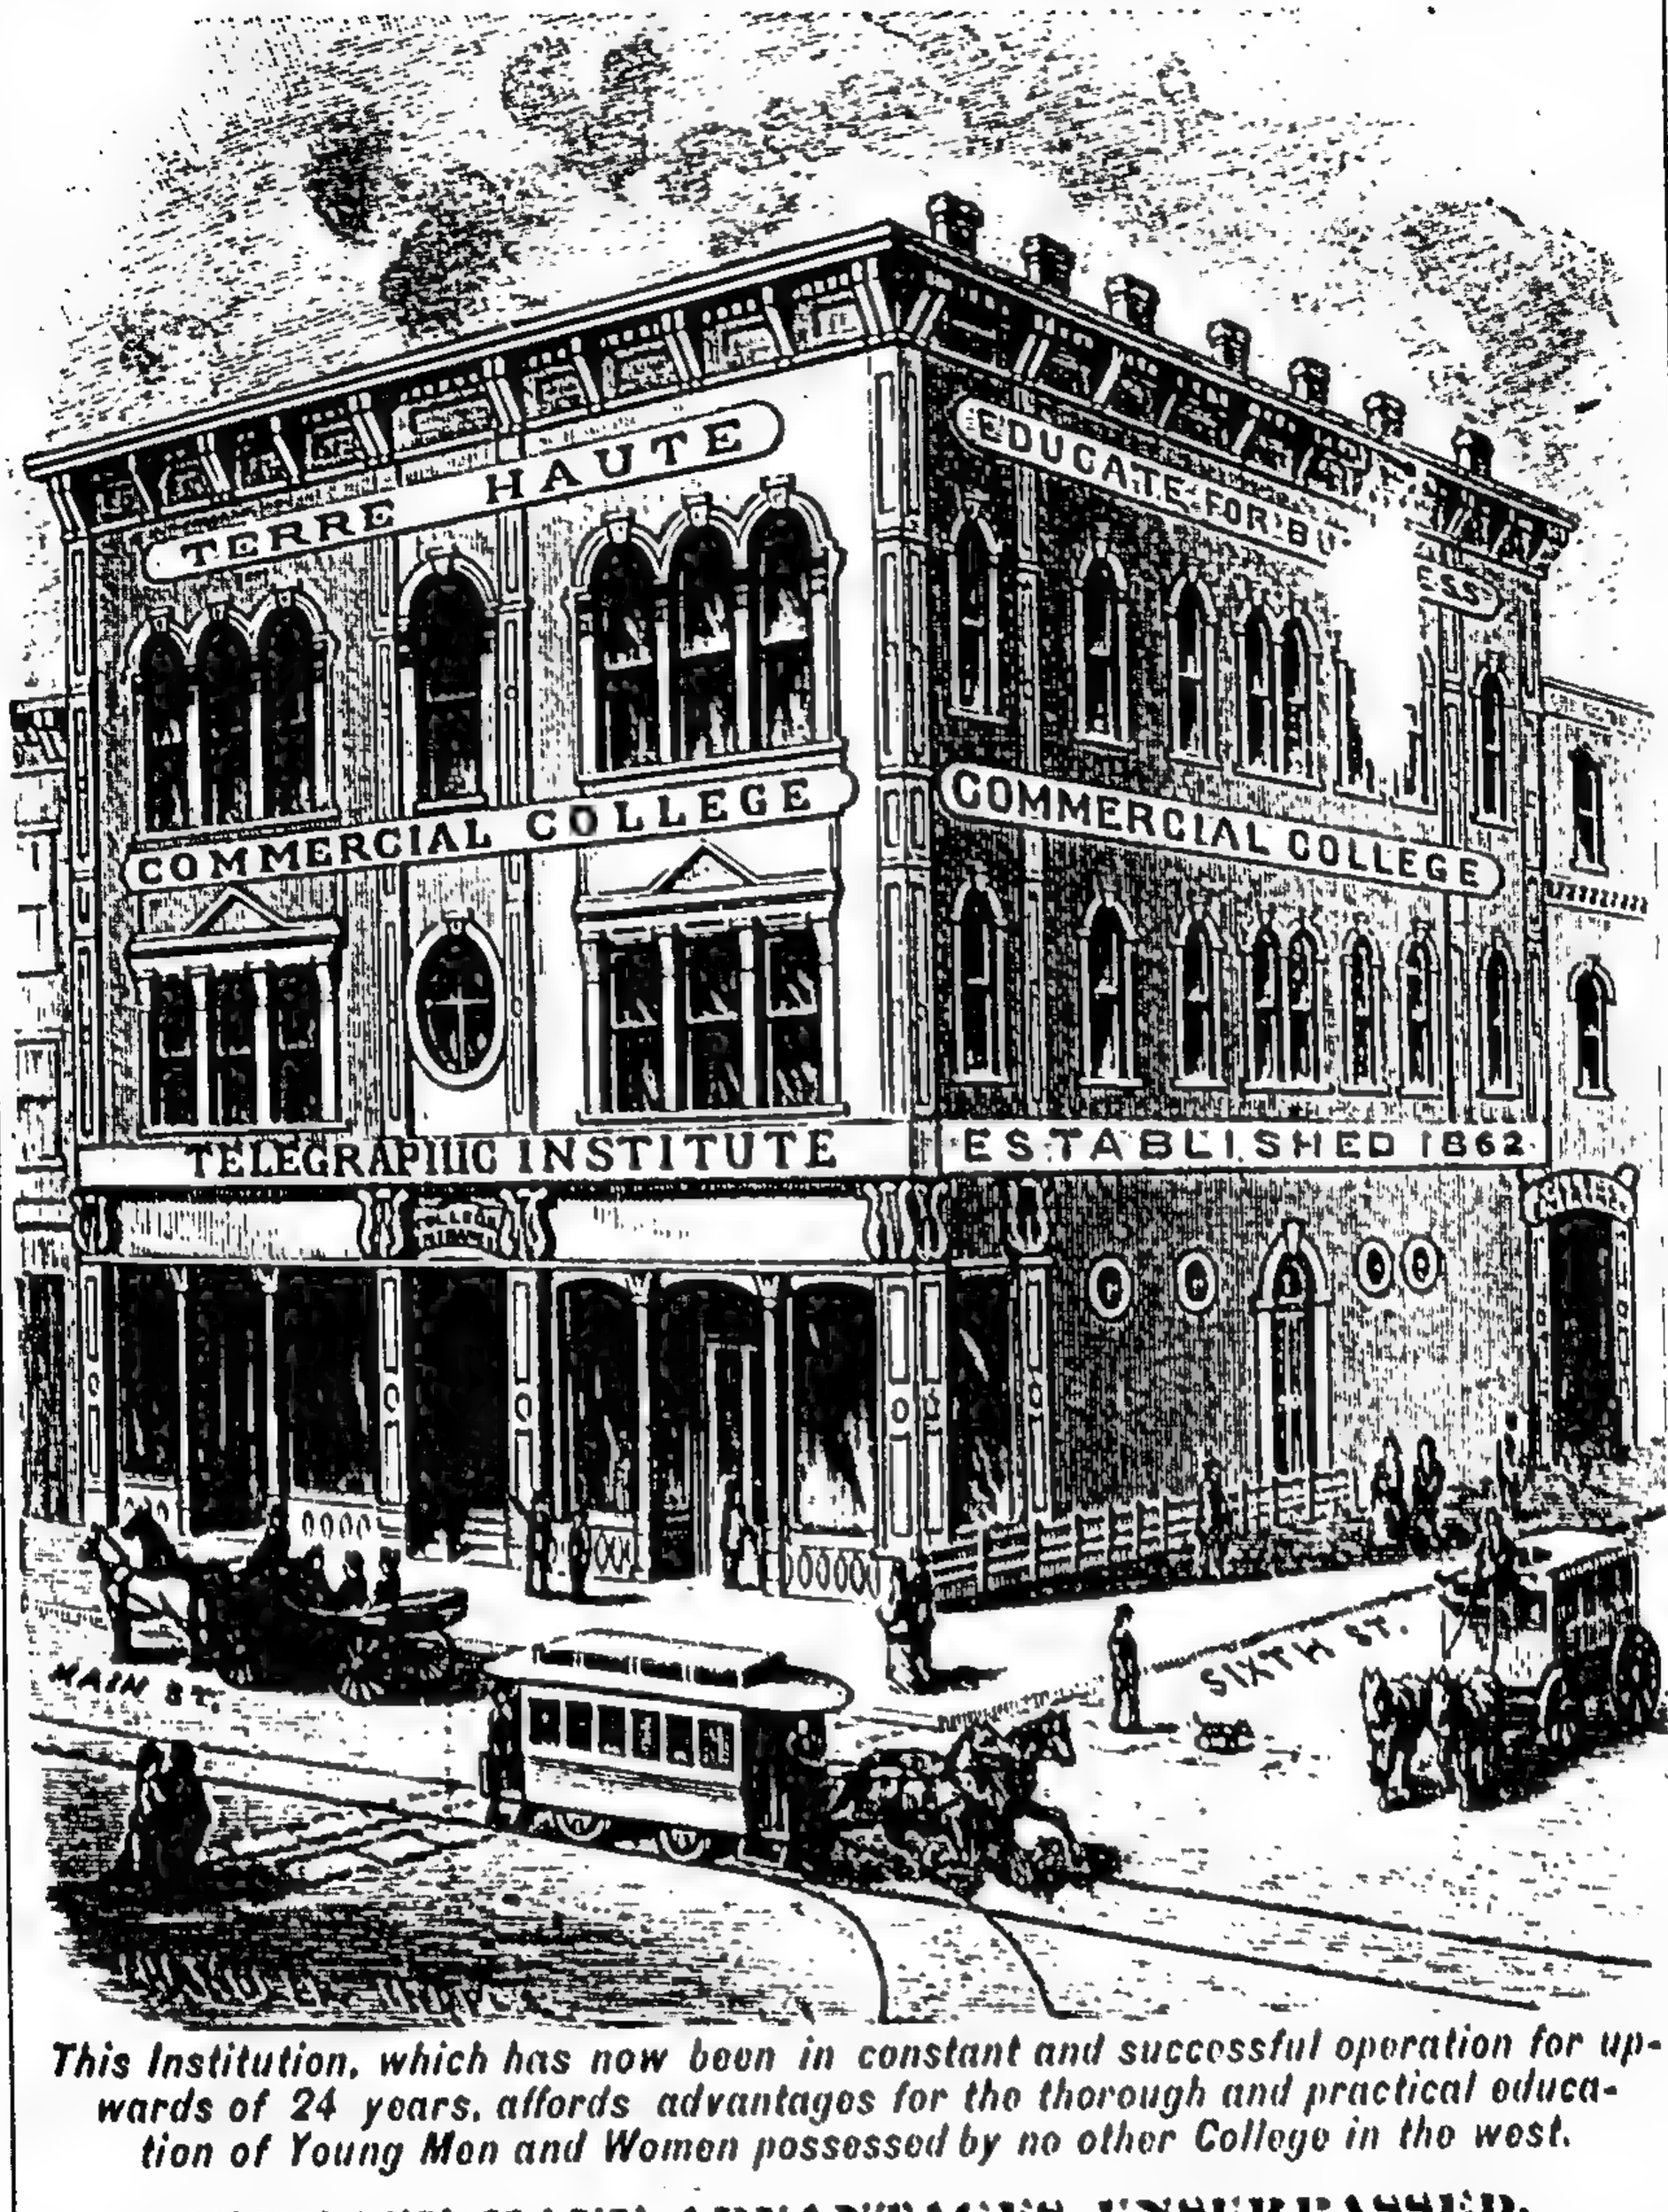
OFFICE, N. W. COR. FIFTH & MAIN STS.

OLD AND RELIABLE!



This Institution, which has now been in constant and successful operation for upwards of 24 years, affords advantages for the thorough and practical education of Young Men and Women possessed by no other College in the west.

WHY WE HAVE ADVANTAGES UNSURPASSED.

First—The College is located in one of the most flourishing, beautiful and healthy cities of the West. Second—The College occupies larger and finer rooms than any similar institution. Third—The proprietors and teachers are practical business men, having had years of experience. Fourth—It is the least expensive to the pupil, as all text books, manuscripts, etc., are free to the student. Fifth—The result arising from the above advantages has given us a patronage that we do not hesitate to say is larger than any (strictly Business College) in the West.

Bookkeeping, Penmanship, Commercial Correspondence, Practical Arithmetic, Commercial Law, Telegraphy, Phonography, Type Writing, are the principal branches taught. For full particulars call on or address

VIGO COUNTY DIRECTORY,

TO WHICH IS ADDED A

COMPLETE COUNTY GAZETEER

AND

NEW COUNTY MAP.

TERRE HAUTE, IND.:
COMPILED AND PUBLISHED BY CHAS. O. EBEL & CO.,
1884.

INTRODUCTORY.

With this issue we present the second volume of the Vigo County Directory, both of which have been issued by us. It has been our aim to make this issue the most perfect County Directory ever issued. Every township has been canvassed closely and it has been our aim to make the locations of residents as easy to find as if living in a city. All persons are located by the number of section of land they live in and the township, and by refering to the map, the location can be easily found. Besides the township and section, the postoffice address is given.

All persons engaged in business are compiled under the postoffice where they receive their mail.

The new County Map was prepared by us especially for this work.

In 1886 we will again issue the Vigo County Directory, and hope then to get it more perfect.

In the Miscellaneous Directory will be found all the information in regard to the Courts, County and Township Officers, &c.

The Beautiful White Bronze

Monuments and Statuary

The only Monuments in the world that will not change in color and lose their beauty; absorb the green from trees, turn dark and dingy by exposure, become moss-grown, disintegrate, and go to ruin.

These Monuments are free from all the above objections.

The durability of White Bronze Monuments is an unquestionable scientific fact. They are practically indestructible.

GEO. A. KONIG, Ph. D.,
Prof. Metallurgy and Chemistry, University of Penn.

Few people realize the vast amount of cracked marble and granite there is until they investigate the subject in old cemeteries.

Watt's "Dictionary of Chemistry," the unquestionable authority of the scientific world says: "Zinc, when exposed to the air or placed in water its surface becomes covered with a gray film or oxide, which does not increase. This film will resist the chemical effects of the atmosphere for all time."

See also Appleton's "American Encyclopedia," vol. 16, page 636.
See also Brund's "Encyclopedia of Science," vol. 1.
See also "Chamber's Encyclopedia," vol. 10.

They are practically indestructible. Age will not impair their beauty. All letters are raised and cannot be broken or chipped off.

The following analysis was made by A. Hurd, Professor of Chemistry, Knox College, Galesburg, Ill: Having analyzed the zinc of which White Bronze Monuments are made, I find neither arsenic, copper nor iron. Impurities are too small to be noted. The percentage analysis is:

Zinc	99 2-10 per cent
Cadmium (a zinc oxide)	00 6-10 per cent
Lead	00 2-10 per cent
	100 per cent

Why marble fails, and is so ill adapted for cemetery purposes, is best told by our leading Professors in Chemistry, State Assayers of Metals, &c. We will briefly quote from one of the most profound scientists in this country, George A. Konig, Ph.D., Prof. of Metallurgy, University of Pennsylvania, which is as follows:

WEST PHILADELPHIA, October 3, 1877.

Marble is a carbonate of lime, usually mixed with more or less carbonate of magnesia. It contains grains and seams of yellow iron pyrite, a combination of iron and sulphur. This is rapidly attacked by air and water, forming copperas, and ultimately, yellow and brown blotches on the white stone. Sometimes it causes, by expansion, the crumbling of massive blocks and columns. Carbonic acid and water dissolve the marble from the outside, destroy rapidly any polish, leaving a dead, white, uneven surface. For lasting monumental structures, marble is the least suited material.

CHAS. O. EBEL & CO'S

VIGO COUNTY DIRECTORY,

1884.

NOTE—Below is given the names of all residents of the county by townships. Those marked * are owners of property. The following is an explanation of the abbreviations: *Jones Jas O, f, 23, Riley, means Jones James O, farmer, resides in section 23, in the township under which his name appears and receives his mail at Riley postoffice, is also a property owner. Reference to map will show location of section and township.

In the Miscellaneous Directory in front part of City Directory will be found all information in regard to County and Township Officers, time of holding courts, &c.

FAYETTE TOWNSHIP.

Fayette Township is situated in the Northwest part of the county. There are four postoffices in this Township, viz: New Goshen, Sandford, Libertyville and Tecumseh. SUGAR CREEK TOWNSHIP.

Sugar Creek Township lies immediately west of Terre Haute, the Wabash river forming the eastern boundary and the Illinois state line the western. There are two sections of the same numbers, viz: 1, 2, 3, 4, 5, 6, 9, 10, 11, 12, 14, 15, 16, 21, 22 and 23. To distinguish these sections those in the southern part are marked south or s after the number, while the others of like number are numbered only by figure with nothing after it. TAKE THE

Grand Rapids & Indiana

RAILROAD.

The only route to the Trout, Grayling and Black Bass Fisheries, and the Famous Summer, Health and Game Resorts and Lakes of

NORTHERN MICHIGAN.

THE WATERS of Grand Traverse region and the Michigan North Woods are unsurpassed, if equaled, in the abundance and great variety of fish contained.

BROOK TROUT abound in the streams, and the famous AMERICAN GRAYLING is found only in these waters.

THE TROUT SEASON begins May 1st and ends September 1st. THE GRAYLING SEASON opens June 1st and ends November 1st.

BLACK BASS, PIKE, PICKEREL, and MUSKALONGE also abound in large numbers in the many lakes and lakelets of this territory. The sportsman can readily send trophies of his skill to his friends or "Club" at home, as ice for packing fish can be had at nearly all points.

THE CLIMATE is peculiarly beneficial to those suffering with HAY FEVER and ASTHMATIC AFFECTIONS.

NEW HOTELS with all modern improvements have been erected, as well as many extensive additions to the older ones, which will guarantee ample ACCOMODATIONS FOR ALL.

The completion of this line from Petoskey to Mackinaw City, forms the most direct route to Mackinac, St. Ignace, and in connection with the Detroit, Mackinac & Marquette R. R., to Houghton, Hancock, Marquette, Negaunee, L'Anse and all points in the Upper Peninsula of Michigan.

INTRODUCTORY.

With this issue of the Terre Haute City Directory, we present the Twentieth Volume, the last six of which have been issued by us.

We have endeavored to make each new volume an improvement on the last, and think we have succeeded.

Our city shows, as usual, a steady growth. A glance through the Alphabetical Directory will show a large number of new names, while a glance at the Business Directory will show a handsome increase. Our estimate of the population is 32,000.

In the Miscellaneous Directory will be found a great deal of information in regard to the City and County Government, time of holding Courts, Church Directory, Incorporated Companies, Secret Societies, etc., etc., and after the Street Directory will be found the ward boundaries and voting precincts, and place of voting.

We desire to return our thanks to our patrons, and ask a continuance of their patronage in 1886.
